What Is Flight Booking Through Chase Travel?

Flight booking through Chase Travel refers to the process of searching, comparing, and purchasing airline tickets directly through the **Chase Travel portal** — the official travel booking platform integrated with the **Chase Ultimate Rewards ecosystem**.

Accessible via **Chase.com** or the **Chase Mobile app**, the portal allows eligible cardholders to pay for flights using:

- Ultimate Rewards points
- Cash
- A flexible combination of both

The portal draws its inventory from a global distribution system powered by **Expedia’s travel network**, giving users access to thousands of flights worldwide.

Why It’s Valuable

Premium Chase cards boost the redemption value of points when used in the portal.

Chase Card	Redemption Rate	60,000 Points Value
Sapphire Reserve®	1.5¢ per point	\$900 flights
Sapphire Preferred®	1.25¢ per point	\$750 flights
Ink Business Preferred®	1.25¢ per point	\$750 flights
Freedom Flex® / Unlimited®	1.0¢ per point	\$600 flights

For example:

- **60,000 points with Sapphire Reserve = \$900 in flights**

This value boost is why millions of Chase customers use the portal as their primary booking platform.
