What Is the Chase Travel Portal and Who Can Use It?

Chase Travel (formerly Chase Ultimate Rewards Travel) is the official travel booking platform available exclusively to Chase credit cardholders -- including Chase Sapphire Preferred, Chase Sapphire Reserve, Chase Freedom Unlimited, Chase Freedom Flex, and Ink Business cards. The portal is powered by Expedia's technology and allows cardholders to book flights, hotels, car rentals, and cruise packages while earning or redeeming Ultimate Rewards points.

Understanding **how to change a flight booked through chase travel portal** starts with knowing what type of booking you have -- because the change process and fees differ based on whether you paid with cash, credit, or Ultimate Rewards points.

Who can change flights through Chase Travel portal:

- Chase Sapphire Preferred cardholders (1.25x point redemption value)
- Chase Sapphire Reserve cardholders (1.5x point redemption value)
- Chase Freedom Unlimited and Freedom Flex cardholders

Chase Ink Business card holders

Any Chase cardholder who booked directly through travel.chase.com

How to Change a Flight Booked Through Chase Travel Portal: Full Step-by-Step

how to change a flight booked through chase travel portal -- here is the complete process broken into simple, actionable steps:

Step 1 -- Log Into Your Chase Account

Open a web browser and go to chase.com. Enter your Chase username and password. Complete any two-factor authentication if prompted. Make sure you are logged into the same account that was used to make the original flight booking -- Chase Travel bookings are tied to individual accounts.

Step 2 -- Open the Chase Travel Portal

Once logged in, look for the "Explore and Book Travel" option in the top navigation menu or dashboard tiles, or navigate directly to travel.chase.com. This opens the Chase Travel portal powered by Expedia. Do not use the Expedia website directly, as your Chase booking exists within the Chase Travel ecosystem only.

Step 3 -- Navigate to My Trips

In the top-right corner of the Chase Travel portal, click on your profile icon or the Trips tab. Select My Trips from the dropdown. This page shows all your current, upcoming, and past bookings made through the portal. If your booking does not appear here, it may have been made directly with the airline -- in which case contact the airline directly.

Step 4 -- Select Your Flight Booking

Locate the specific flight booking you want to modify. Click on it to expand the full booking details, including your booking confirmation number, passenger information, airline details, and current itinerary. Review everything carefully before proceeding.

Step 5 -- Click Change Flight or Modify Trip

Look for a button labelled Change Flight, Modify Trip, or Change Dates within your booking. **Important:** Not all bookings display this option. If you do not see it, your fare type may not support online self-service changes. In that case, call **+1-888-483-9719** immediately -- our agents have access to modification tools the portal does not always expose to cardholders.

Step 6 -- Search for Your New Flight

After clicking Change Flight, the portal displays a search interface pre-populated with your route. Adjust the date, time, or other parameters to find your new preferred flight. The portal shows available options with their fare classes and any price differences compared to your original booking.

Step 7 -- Review the Fare Difference and Any Fees

Before confirming anything, carefully review the cost breakdown. You will see: (1) the fare difference -- the cost between your original ticket and the new one; (2) any airline change fee, if applicable; and (3) the total amount that will be charged to your Chase card or deducted from your UR points balance. **Never confirm without reading this screen in full.**

Step 8 -- Confirm Your Change

Once satisfied, click Confirm Change. The portal will process the modification, communicate with the airline's reservation system, and issue an updated e-ticket. You will receive a new confirmation email within 15 minutes in most cases. Save this email -- it is your proof of the updated booking.

Step 9 -- Verify With the Airline

After the Chase portal confirms your change, log into the airline's own website or app using your PNR (Passenger Name Record) number and verify the updated itinerary appears there too. If it does not appear within 24 hours, call **+1-888-483-9719** to confirm the change was fully processed end-to-end.

Fees and Costs: What to Expect When You Change a Flight Through Chase Travel Portal

A major concern when asking **how to change a flight booked through chase travel portal** is the question of cost. Here is a complete breakdown of what fees you may encounter:

Fee Type	When It Applies	Typical Cost
----------	-----------------	--------------

Airline Change Fee	Basic Economy fares on airlines that still charge them	\$0 to \$200 depending on airline and route
Fare Difference (upward)	New flight costs more than original booking	Difference in ticket price
Fare Difference (downward)	New flight costs less -- refund or credit issued	Credit back to card or UR account
Same-Day Change Fee	Changing to a same-day flight (if allowed)	\$75 to \$150 depending on airline
Chase Portal Service Fee	Charged by Chase Travel on some modifications	\$0 to \$25 (check before confirming)
No Refund Penalty	Non-refundable ticket downgrade - - no residual value	Loss of price difference

Airlines That Have Eliminated Most Change Fees

- * Delta Air Lines -- No change fees on Main Cabin and above for domestic and most international routes
- * United Airlines -- No change fees on Standard Economy and above (Basic Economy excluded)
- * American Airlines -- No change fees on most domestic and short-haul international fares
- * Alaska Airlines -- No change fees on Saver fares and above
- * Southwest Airlines -- Never charges change fees on any fare type
- * JetBlue Airways -- No change fees on Blue and above fares

Pro Tip for Sapphire Reserve Holders: Your Chase Sapphire Reserve card includes a Trip Change Protection benefit that may reimburse certain non-refundable change costs. Check your card benefits at chase.com/cardbenefits before paying out of pocket.

How to Change a Flight Booked Through Chase Travel Portal Using Ultimate Rewards Points

If you used Ultimate Rewards points to book your flight, the question of **how to change a flight booked through chase travel portal** works slightly differently. Here is what points-booking holders need to know:

1. **Same portal, same steps:** Log into Chase Travel, go to My Trips, and click Change Flight. The interface is identical to cash bookings.
2. **Fare differences paid in points or cash:** If your new flight costs more, you can pay the difference using additional UR points or a Chase credit card on file. You choose at the confirmation screen.
3. **Downward fare adjustments:** If the new flight costs fewer points, the difference is returned to your Ultimate Rewards account within 3 to 5 business days.
4. **Redemption value is locked at booking:** Your original redemption rate (1.25x for Sapphire Preferred, 1.5x for Sapphire Reserve) applies to the original booking only. Fare differences may be calculated at a different rate.
5. **Some award fares may not be changeable online:** Heavily discounted award bookings may restrict online changes. If you see no change option, call **+1-888-483-9719** for agent-assisted modification.

Timing: How Long Does It Take and What Are the Deadlines?

When planning how to change a flight booked through chase travel portal, timing is everything. Here are the critical timelines you need to know:

Modification Type	Processing Time	Deadline
Standard online change (same airline)	Instant to 15 minutes	Up to 24 hrs before departure
Points-based booking change	15 to 30 minutes	Up to 24 hrs before departure
Complex / multi-segment change	May require phone -- 30 to 90 min	24 to 48 hrs before departure recommended
International itinerary change	1 to 24 hrs for airline backend	48 to 72 hrs before departure recommended
Same-day change request	Requires phone call	Day of travel -- time-sensitive
Refund processing (fare difference)	5 to 7 business days	Automatic after change confirmed
UR Points refund	3 to 5 business days	Automatic after change confirmed

Critical Rule: Always make your change as early as possible. The earlier you act, the more flight options you will have, the lower the fare differences tend to be, and the less risk you run of your preferred alternative selling out. Do not wait until the last 24 hours unless it is unavoidable.

Common Problems When Changing a Flight Through Chase Travel Portal (And How to Fix Them)

Even experienced travelers run into issues. Here are the most common problems people face when working out how to change a flight booked through chase travel portal -- and the fastest solutions:

Problem 1: The Change Flight Option Is Not Visible

This is the most frequent issue. It means your fare class, airline, or booking type does not support online self-service modifications. **Solution:** Call **+1-888-483-9719** immediately. Agents have backend access to modification tools that are not exposed through the portal interface, and can often process changes for bookings the website says cannot be changed.

Problem 2: Portal Times Out or Throws an Error During Confirmation

This usually happens due to browser cache issues, session timeouts, or real-time availability conflicts. **Solution:** Clear your browser cache, close all tabs, and restart the process. Use Chrome or Firefox on a desktop device for best results. If the error persists after two attempts, call **+1-888-483-9719** -- do not keep retrying, as you may create a duplicate booking.

Problem 3: Desired New Flight Is Not Showing in the Results

The Chase Travel portal shows real-time availability pulled from airline inventory. If a specific flight is not showing, it may be sold out in your fare class or not yet loaded. **Solution:** Try adjusting your search by one day in either direction, or call **+1-888-483-9719** -- agents can sometimes access fare classes not visible through the portal's public interface.

Problem 4: Fare Difference Seems Higher Than Expected

Fare differences are calculated based on the current market price of the new flight versus the original booking price. If prices have risen since you booked, the difference can be significant. **Solution:** Do not confirm until you are comfortable with the cost. Call **+1-888-483-9719** -- agents can sometimes apply promotional fares or travel credits to reduce the fare difference.

Problem 5: Change Was Confirmed But Airline Does Not Reflect It

This happens when the Chase portal has confirmed on its end but the airline's system has not yet fully processed the re-ticketing. **Solution:** Wait up to 24 hours, then check again on the airline's website. If the discrepancy persists after 24 hours, call **+1-888-483-9719** with your booking reference number for immediate escalation.

Chase Travel Portal vs. Phone: Which Is Better for Changing Your Flight?

Part of mastering **how to change a flight booked through chase travel portal** is knowing when to use the portal and when to pick up the phone. Here is an honest comparison:

Scenario	Use Portal	Call +1-888-483-9719
Simple date or time change, same route	Best option	Also available
Change Flight button not visible	Cannot proceed	Only option
Same-day flight change	Often unavailable	Best option
Multi-segment or complex itinerary	Limited support	Best option
International codeshare flight change	Limited support	Best option
Applying a travel credit to fare difference	Not supported	Best option
Non-refundable fare -- requesting waiver	Not possible	Only option
Points + cash combination payment	Limited	Best option
Urgent change needed within 2 hours	Risky	Best option

Expert Tips for Changing a Chase Travel Portal Flight Without Stress

how to change a flight booked through chase travel portal smoothly -- follow these tips from experienced Chase Travel users and travel agents:

- * **Research your new flight before you open the portal.** Know the exact flight number, departure time, and fare class you want. This cuts portal time in half and reduces the risk of timing out mid-search.
- * **Have your booking confirmation email open.** Your confirmation number, PNR, and original fare class are in that email. You will need them during the change process.
- * **Use a desktop browser -- not mobile.** The Chase Travel portal has known display issues on some mobile browsers that can make the Change Flight button harder to locate or cause errors.
- * **Check your card's travel protection benefits first.** Chase Sapphire Reserve holders may be able to claim certain change fees under their trip delay or cancellation coverage. Do not pay out of pocket until you have checked.
- * **Screenshot every screen.** Before and after clicking Confirm Change, take screenshots of the fee summary, new itinerary, and confirmation number. These protect you if there is a dispute.
- * **Verify on the airline app within 1 hour.** After the Chase portal confirms your change, immediately check the airline's app using your PNR. Early identification of any discrepancy means faster resolution.
- * **Call during off-peak hours for faster service.** If you need phone support, Tuesday through Thursday mornings between 9 AM and 11 AM EST typically have the shortest wait times at **+1-888-483-9719**.
- * **Do not make repeat portal attempts if you see an error.** Multiple failed confirmation attempts can create duplicate holds on your account. Call **+1-888-483-9719** after the second failed attempt.

Frequently Asked Questions: How to Change a Flight Booked Through Chase Travel Portal

Everything you need to know about [how to change a flight booked through chase travel portal](#) -- answered by our Chase Travel experts:

Q1: Exactly how to change a flight booked through chase travel portal -- what is the quickest way?

The quickest way is to log into chase.com, open the Chase Travel portal, go to My Trips, locate your booking, and click Change Flight. For a standard same-airline date or time change, the entire process typically takes 10 to 20 minutes from login to confirmation email.

Q2: Can I change a non-refundable flight booked through the Chase Travel portal?

Yes, in many cases. Most major airlines now allow changes on non-refundable tickets without a change fee -- you just pay the fare difference if the new flight is more expensive. Basic Economy fares are the exception. If you are unsure whether your fare is changeable, call [+1-888-483-9719](#) before attempting the change online.

Q3: Is there a fee for how to change a flight booked through chase travel portal?

Chase Travel itself may charge a small service fee on some modifications (up to \$25). The bigger cost variable is the airline's own change fee (now \$0 for most standard fares) and any fare difference between your original and new ticket. The portal shows a full fee breakdown before you confirm.

Q4: How to change a flight booked through chase travel portal if I used Ultimate Rewards points?

The process is identical to a cash booking. Go to My Trips, click Change Flight, and select your new flight. Fare differences can be paid with additional points or a Chase credit card. If your new flight uses fewer points, the difference is refunded to your UR account within 3 to 5 business days.

Q5: What happens to my seat selection when I change a flight through Chase Travel portal?

Your original seat selection is released when your flight changes. You will need to select a new seat on the new flight immediately after your change is confirmed. Do this as soon as you receive the confirmation email to get the best available seats before other passengers book them.

Q6: Can I change to a different airline through the Chase Travel portal?

No. The Chase Travel portal can only modify your booking to a different flight on the same airline. To switch airlines entirely, you would need to cancel your existing booking (subject to cancellation and refund policies) and make a new booking on the new airline. Call us to discuss the best approach for your situation.

Q7: How to change a flight booked through chase travel portal for international routes?

International changes follow the same portal steps but take longer to fully process -- airline backend re-ticketing for international itineraries can take 6 to 24 hours. For any international change within 48 hours of departure, skip the portal and call **+1-888-483-9719** directly for priority handling.

Q8: What if I want to change only one leg of a connecting flight through Chase Travel portal?

The portal may allow you to change individual segments in some cases. Look for a segment-level Change button within your booking details. If you only see a full itinerary change option, call **+1-888-483-9719** -- agents can modify individual segments that the portal groups together.

Q9: How to change a flight booked through chase travel portal on the same day of travel?

Same-day changes are time-critical. The portal may not show the option for same-day modifications depending on the airline and fare type. For same-day changes, call **+1-888-483-9719** immediately -- agents have priority ticketing access and can handle same-day modifications that the portal cannot process.

Q10: Will changing my flight through Chase Travel affect my credit card points balance?

Yes, if there is a fare difference. If you pay the difference with a Chase card, you will earn points on that additional spend. If you receive a refund (lower-cost flight), that credit does not generate additional points. Your original points earned from the initial booking are not affected by the change.

Q11: How do I know if my Chase Travel flight change was successful?

You will receive a new confirmation email from Chase Travel within 15 minutes of confirming the change. Additionally, your updated itinerary should appear in My Trips in the portal. Cross-check on the airline's own website using your PNR. If you do not receive a confirmation email within 30 minutes, call **+1-888-483-9719** to verify the change was processed.

Q12: How to change a flight booked through chase travel portal if the website is not working?

If the Chase Travel portal is down, experiencing errors, or you cannot log in, call **+1-888-483-9719** directly. Phone agents have independent system access and can

process your flight change even when the website is unavailable. Do not wait for the portal to come back online if your travel date is approaching.

Q13: Can a Chase Travel agent change my flight for me even if the portal shows no change option?

Yes. This is one of the most important things to know about **how to change a flight booked through chase travel portal**. Chase Travel phone agents have access to backend modification tools that go beyond what the portal exposes to customers. Many bookings that appear non-changeable online can be modified by an agent. Call **+1-888-483-9719** and explain your situation -- they will find the best available path forward.

When to Call +1-888-483-9719 Instead of Using the Portal

Knowing **how to change a flight booked through chase travel portal** also means knowing your limits. Call us in these situations for faster, more reliable results:

- * The Change Flight button is not visible in your booking
- * You are traveling internationally within the next 48 hours
- * You need a same-day flight change
- * Your booking involves a codeshare or multi-airline itinerary
- * You want to apply a travel credit or airline voucher to your fare difference
- * The portal charged your card but the change did not complete
- * You want to change only one leg of a multi-city itinerary
- * You have already attempted the portal change twice and received errors
- * You need a waiver or exception for a non-changeable Basic Economy fare
- * Your original booking was made with a combination of points and cash
- * You are not sure whether your fare type supports changes

Available 24 hours a day, 7 days a week, 365 days a year.

Our Chase Travel specialists handle thousands of flight modifications every day. We know every airline's policies, every waiver option, and every shortcut in the system. When the portal says no, we often find a way.

Call now: **+1-888-483-9719**

Conclusion: How to Change a Flight Booked Through Chase Travel Portal

Now you have the complete, expert answer to **how to change a flight booked through chase travel portal**. The process is straightforward for most standard modifications -- log in, open Chase Travel, go to My Trips, click Change Flight, select your new flight, review fees, and confirm. Expect a confirmation email within 15 minutes and allow up to 24 hours for the airline to fully update its systems.

The key variables that complicate things -- non-changeable fares, codeshare itineraries, same-day changes, points bookings, portal errors -- are all situations where calling **+1-888-483-9719** delivers faster, more reliable results than the portal. Our agents have tools, waiver authority, and airline relationships that the self-service portal simply cannot replicate.

Take action today. Do not let an upcoming flight change cause unnecessary stress. Whether you handle it yourself through the portal right now, or call our 24/7 support team for expert guidance, the right move is to act immediately -- before prices rise, seats disappear, or your change window closes.
