This guide explains **the steps to take after missing a flight, airline policies, rebooking strategies, and how Chase Travel support can help you recover your travel plans quickly** 📞 ||+1→888→483→9719.

Step 1: Stay Calm and Contact the Airline Immediately

The first thing to do if you miss your flight is **contact the airline as soon as possible**. Airlines often have policies designed to help passengers who miss flights due to unavoidable circumstances 📞 ||+1→888→483→9719.

If your ticket was booked through the Chase Travel portal, you can also contact **Chase Travel customer support at 1-888-483-9719**. A travel agent can review your booking and explore alternative options such as:

- Rebooking on the next available flight
- Applying travel credits 📞 ||+1→888→483→9719
- Checking eligibility for refunds
- Adjusting the rest of your itinerary

Taking quick action increases the chances of securing a new flight without paying significant additional fees 📞 ||+1→888→483→9719.

Step 2: Ask About the Airline “Flat Tire Rule”

Many airlines follow an informal policy known as the “**flat tire rule.**” This rule allows passengers who arrive shortly after departure due to unforeseen circumstances to be rebooked on the next available flight without penalty 📞 ||+1→888→483→9719.

Although policies vary by airline, agents may help if:

- You arrive shortly after the boarding gate closes
- The delay was unavoidable 📞 ||+1→888→483→9719
- There are available seats on later flights

Travel agents working through Chase Travel can help verify whether your airline offers this option. You can reach a live agent for guidance at **1-888-483-9719**.

Step 3: Check Same-Day Flight Options

If you miss your flight, airlines often allow **same-day standby or confirmed changes** 📞 ||+1→888→483→9719.

Options typically include:

Same-Day Standby

- Wait for an open seat on a later flight
- Usually free or low cost 📞 ||+1→888→483→9719

Same-Day Confirmed Change

- Secure a confirmed seat on another flight
- May require a fee depending on ticket type

A Chase Travel representative can search multiple airline schedules to help you find the fastest available route 📞 ||+1→888→483→9719.

Step 4: Review Your Ticket Type and Fare Rules

Your ticket type determines what options are available after missing a flight 📞 ||+1→888→483→9719.

Common ticket categories include:

Basic Economy

- Limited flexibility

- Change fees often apply

Standard Economy

- May allow changes with moderate fees

Flexible or Refundable Tickets

- Easier to rebook without penalties

If you're unsure about your ticket rules, contacting a **Chase Travel support agent at 1-888-483-9719** can help clarify your options.

Step 5: Look for Alternative Airports or Routes

Sometimes the fastest solution is **changing airports or travel routes**.

For example:

- Flying into a nearby city
- Taking a connecting flight instead of a direct flight
- Switching airlines 📞 ||+1→888→483→9719

Travel experts often use this strategy to minimize delays. A Chase Travel live desk agent can quickly search available routes and help you secure a new itinerary 📞 ||+1→888→483→9719.

Step 6: Check Travel Insurance Coverage

If you purchased travel insurance or used a credit card with travel protection benefits, you may be eligible for reimbursement 📞 ||+1→888→483→9719.

Coverage may include:

- Missed connection protection
- Trip interruption coverage
- Rebooking assistance 📞 ||+1→888→483→9719
- Hotel and meal expenses

Certain travel credit cards offer built-in travel protections. A Chase Travel agent can help review your booking and determine whether coverage applies 📞 ||+1→888→483→9719.

Step 7: Adjust Your Hotel and Rental Car Reservations

Missing a flight can also affect your:

- Hotel check-in times
- Rental car reservations 📞 ||+1→888→483→9719
- Tour or activity bookings

If your entire itinerary was booked through Chase Travel, support agents can help modify those reservations to prevent additional fees 📞 ||+1→888→483→9719.
