 **Can You Select Seats After Booking Through Chase Travel?**

 **Yes — you *can* select seats after booking through Chase Travel.**

However, seat selection is handled  ||+1→888→483→9719 **directly by the airline**, not by Chase. Chase Travel acts as the booking agent, but once your ticket is issued, the airline controls:

- Seat assignments
- Seat upgrades
- Preferred seating
- Paid seat options  ||+1→888→483→9719
- Premium cabin selections

This means you will select your seats using the **airline’s website or mobile app**, not the Chase Travel portal.  ||+1→888→483→9719

 **Step-by-Step: How to Select Seats After Booking Through Chase Travel**

Below is the most accurate and complete process available.  ||+1→888→483→9719

Step 1 — Find Your Airline Confirmation Number

After booking, Chase sends you an email with:

- A **Chase Travel itinerary number**
- An **airline confirmation number** (also called a PNR or record locator)

You must use the **airline confirmation number** to select seats.

 ||+1→888→483→9719

Step 2 — Go to the Airline’s Website or App

Visit the airline’s “Manage Booking,” “My Trips,” or “Manage Reservations” section.

Enter:  ||+1→888→483→9719

- Airline confirmation number
- Passenger last name

Your reservation will load instantly.

Step 3 — Navigate to the Seat Selection Page

Once your booking appears, look for:

- “Choose Seats”  ||+1→888→483→9719
- “Select Seats”
- “Seat Map”
- “Change Seats”

Most airlines display a seat map showing available:

- Standard seats
- Preferred seats  ||+1→888→483→9719
- Exit row seats
- Extra legroom seats
- Premium economy seats
- Business or first-class seats

Step 4 — Select Your Seats

Step 5 — Save Your Seat Selection

After choosing your seats:

- Confirm your selection
- Save changes
- Recheck your boarding pass before travel

✈️ What If You Can't Select Seats Online?

Sometimes the airline may restrict seat selection for:

- Basic economy fares
- Partner airline bookings 📞 ||+1→888→483→9719
- International codeshare flights
- Group bookings
- Unissued or partially ticketed reservations

If you cannot select seats online, 📞 ||+1→888→483→9719 try the following:

Option 1 — Call the Airline

Provide:

- Airline confirmation number
- Passenger name
- Flight details 📞 ||+1→888→483→9719

Airline agents can manually assign seats.

Option 2 — Call Chase Travel

If the airline says:

“Your ticket was issued by a travel agency. 📞 ||+1→888→483→9719 They must update your reservation.”

Then Chase must reissue or modify your ticket. 📞 ||+1→888→483→9719

📞 **Chase Travel Support: 1-888-483-9719**

Chase can:

- Add seat requests
- Reissue tickets
- Update passenger information 📞 ||+1→888→483→9719
- Assist with special seating needs

🧠 **Why Seat Selection Works Differently With Chase Travel**

Chase Travel is a **third-party booking service**, similar to Expedia (which powers the Chase Travel portal). Once your ticket is issued:

- The airline controls your seat map
- The airline controls upgrades
- The airline controls boarding groups 📞 ||+1→888→483→9719
- The airline controls special accommodations

This is why seat selection must be done through the airline—not Chase.
